The screenshot shows the Bosch Bid Collector interface. At the top, there's a header with the Bosch logo, 'Test System', and the time '16:17 Central European Time DST'. Below that, a navigation bar shows 'Bid Collector: bdc_1497 - Test' and a 'Running' status. The main content area has several tabs: 'Details' (highlighted with a red box), 'Messages (Unread 0)', 'Settings', 'Buyer Attachments (5)' (highlighted with a red box), 'My Response', and 'Associated Users'. Under 'Buyer Attachments', there's a 'Folders and Files List' section with a search filter 'Enter Filter (type to start search)'. Below the filter, it says 'Showing Result 1 - 5 of 5' and 'Show: 50'. A table lists five attachments, with the entire table area highlighted by a red box:

	To enter a bid for an item, provide responses to the optional and mandatory fields for that item on the Bid_Response sheet.															
	Important: please edit only Blue (= Optional) and Yellow (= Mandatory) fields. Change to cells with other colour will be ignored and cannot be sent back to customer.															
	Individual price columns may have a 0 entered if the price component is not applicable to your bid, or is not tracked separately. When bidding on an item at least 1 price column must have a value ≥ 0 however.															
14	If you do not want to bid on an item, you should enter a 'x' in column titled "Enter 'x' to decline to bid on an item". For items with an 'x' in this column, no other columns in the row should be completed															
15																
16	Formula values are evaluated when you import your bid. To see the values computed for a formula property, generate a new bid sheet after the bid import has completed.															
17																
18	If you choose to enter bundle data for an item, then you must provide information for both the bundle threshold and amount for that item and at least one of those must be a value ≥ 0 .															
19																
20	NOTE: PLEASE DO NOT ADD OR REMOVE ANY WORKSHEETS, CELLS, ROWS OR COLUMNS FROM THIS WORKBOOK AS THIS MAY CAUSE THE IMPORT OF THE SPREADSHEET TO FAIL.
